## COIL THREAD

Coil Thread Rod is manufactured using high tensile steel and incorporates an easy-flow thread to provide for ease of installation.

	THREAD		U.T.S.
SIZE	INCH	MATERIAL	MIN LBS / SQ "
1/2	4	1035	110,000
5/8	4 - 1/2	1035	110,000
3/4	4 - 1/2	1035	110,000
1	3 - 1/2	1045	110,000
1 - 1/4	3 - 1/2	1045	110,000
1 - 1/2	3 - 1/2	1045	110,000

Coil Thread Rod is available in 12 ft lengths

SIZE	PCS/ BOX	WT/ BOX (LBS)
1/2 - 6	15	98
5/8 - 4 1/2	9	92
3/4 - 4 1/2	6	90
1 - 3 1/2	3	80
1 1/4 - 3 1/2	2	80
1 1/2 - 3 1/2	1	62

Watson Metal will provide the product cut to length at a modest increase in price.

Watson Coil Thread is manufactured in America from Steel produced in America.

We meet all requirements of any state D.O.T.  
Imported Hex Nuts are available for all diameters.

## CONCRETE STAKES

### NAIL – CURB – STAKES

Concrete Stakes are used to secure wood or metal forms to the ground. For concrete placement, they can be removed and re-used many times. Manufactured from 1040 steel to withstand the hammer blows, the stakes have numerous nail holes to insure one will line up with the form.

The nominal 3/4 round stake (0.718" diameter) meets the IFI Specifications and has a paint finish to prolong the life before rust.

The stakes are packed in units of ten with plasticated capes, wrapped and palletized by length.

We stock 7 lengths:

LENGTH	# / PACK	WT / PACK (LBS)	# / PALLET	WT / PALLET (LBS)
12"	10	13	1800	2400
18"	10	21	1000	2050
24"	10	27	750	2040
30"	10	35	600	2100
36"	10	42	450	1900
42"	10	50	400	2900
48"	10	58	350	2000

We can offer a nominal 7/8" diameter round stake and a 3/8" thick flat stake. In addition, if demand warrants, we will add a full 3/4" diameter.

These stakes, imported from India, are very versatile and can be used in a myriad of projects outside of concrete forming.

## ANCHOR BOLTS

Check out our full brochure on **Bent Products**.

For concrete work we can supply all state D.O.T. requirements that specify American manufacture and American melted steel. Our new machines allow us to expand the range to include 1 1/2" diameter anchor bolts.

Watson can produce Grade 5 bolts and can finish the product zinc-plated or hot dip galvanized.

In addition, we offer an imported line that includes nuts/washers packed in polybags

## COUPLING NUTS

For jobs that demand long runs of threaded product, we offer a full range of coupling nuts from 1/2" through 1" diameter. These nuts are supplied with plain- or zinc-plated finish.

SIZE	SACKS/ CARTON
1/4 - 20 x 3/8 x 7/8	2500
5/16 - 18 x 1/2 x 1 7/8	1200
3/8 - 16 x 1/2 x 1 1/3	1250
3/8 - 16 x 9/16 x 1 3/4	600
3/8 - 16 x 5/8 x 1 3/4	200
1/2 - 13 x 5/8 x 1 1/4	700
1/2 - 13 x 11/16 x 1 3/4	450
5/8 - 11 x 3/4 x 1 1/2	500
5/8 - 11 x 13/16 x 2 1/8	300
